

Dear Sir/Madam,

Your organisation is cordially invited to attend a full day Beyond COP21 Symposium, kindly hosted by NLCS Jeju, on **Friday, 20th November 2026 from 09.00 to 15.30.**

Beyond COP21 is a global series of symposia, based around the post Paris and UN Sustainable Development Goals agendas, that started in January 2016; it has now taken place 58 times across 28 countries and 6 continents. This will be the first time in South Korea.

An integral part of the Symposium is the Exhibition which runs **from 10.00 - 15.00.**

I would therefore like to invite your organisation to be involved in this aspect of the day, so that you can highlight the work you do, and how it links with the UN SDGs.

The aim of the event is for it to be as interactive and student-centered as possible, and the exhibition plays a key part in that; it is a place where the students and teachers can go to learn more about the sustainability initiatives happening on Jeju Island and in South Korea as a whole.

Each company/organisation is supplied with a display table where they can showcase what they do, as part of an exhibition area within the school. In the morning, students from various year groups in NLCS will visit with their teachers.

After a lunch break(lunch provided by the school), students from Years 7-9 from guest schools will visit the exhibition as part of a carousel of 4 activities(the exhibition and 3 workshops, each lasting 30 minutes). There is no fee for exhibiting.

Participation is by invitation only; therefore you are asked to confirm attendance by **Friday 23rd October 2026.**

Full schedule, planning and logistics for the event will be completed and sent out to all attendees by early November 2026.

Confirmation of participation and any further information required should be directed to

E-mail: peter@target4green.com
